Public Notice

E.A. Hawse Health Center is pleased to announce that we have begun scheduling visits at our four clinic locations for regular check-ups and well patient visits with our providers for medical, behavioral health and chiropractic. Dental will resume a week later. We are still offering tele-health services for those patients that would rather not come in at one of our locations. Well patients will be seen in the mornings and acutely ill or urgent cases will be scheduled in the afternoons to minimize exposure of the routine patients to those who are or might be ill.

All of our working employees have been Covid-19 tested and all tests were negative. We are following guidelines from the CDC and the Governor's office as to protective equipment and health screenings before anyone is allowed into one of our facilities. Please bear with us as we take these precautions to ensure the health and safety of our patients and employees. We are excited to begin the first of many steps toward normalizing our business, which is your health.
